PRIMARY ELECTION

Well, it's beginning to happen. Many incumbents were not reelected. Now let's do the same come this November.

BUSINESS TAX INCENTIVES FOR COMMERCIAL BUILDINGS

A tax deduction of up to \$1.80 per square foot is available to owners or tenants of new or existing commercial buildings that are constructed or reconstructed to save at least 50% of the heating, cooling, ventilation, water heating, and interior lighting energy cost of a building. To get this deduction it must meet ASHRAE Standard 90.1-2001. Contact your builder to see if you qualify for this deduction.

HOME ENERGY EFFICIENCY IMPROVEMENT TAX CREDITS

Consumers who purchase and install specific products, such as energy-efficient windows, insulation, doors, roofs, and heating and cooling equipment in existing homes can receive a tax credit for 30% of the cost, up to \$1,500, for improvements placed in service between Jan. 1, 2009 through Dec. 31, 2010. Any of the aforementioned improvements must meet the Energy Star classification. If you used any part of this credit in 2009, you must reduce 2010's credit by that amount.
